TECHNICAL SKILLS

Frontend Web Skills: ◦ HTML ◦ CSS ◦ JavaScript ◦ React JS ◦ Tailwind CSS
Backend Web Skills: ◦ NEXT JS ◦ MongoDB ◦ Next-Auth
Social Appearance: ◦ GitHub ◦ LinkedIn

PROJECT

BLOG WEBSITE WITH NEXT.JS

I built a blog website with full functionality (frontend and backend) using Next.js and MongoDB. The platform includes an admin route for posting blogs and managing services within the same domain. Blogs are stored in a database, with features to delete and edit them. Users can subscribe via email, which is managed in the backend. Admin authentication is handled with NextAuth and deployed on Vercel.

- **Frontend:** React.js, including components, props, JSX, and hooks (useState, useEffect, useRef, useContext).
- **Backend:** Next.js for routes, dynamic routing, server-side rendering, and HTTP methods (GET, POST, DELETE, PATCH).
- **Database:** MongoDB with Mongoose for schemas and models.
- **Authentication:** NextAuth (OAuth), utilizing providers, credential providers, and sessions.

SOFT SKILLS

Continuous Learning | Problem-Solving | Consistency & Punctuality | Good Communication

CAREER OBJECTIVE

My goal is to contribute significantly to the web development field by building impactful projects for companies. I aim to continuously enhance my skills and stay updated with industry trends.

EDUCATION

- **Matric:** ICS from Govt High No.1 School Pirmahal **2018 to 2020**
- **Intermediate:** Ics from Leads College Pirmahal **2020 to 2022**
- **BS:** CS ongoing from Iqra University Islamabad **2024 to 2028**
